

Lead Management System

Using one system, you'll receive, review and reply to quality leads or inquiries from multiple sites... in real-time!

- Centralized inbox approach allows you to easily manage lead actions from one screen
- Receive real-time, quality leads from multiple sources
- Track activities and set follow-up tasks
- Complete eBay lead information sent via our portal; includes name, phone, email and more...
- Accept or Reject offers in real-time
- Quickly respond to questions
- Pre-configured auto responders available for automated replies
- Credit Apps and customer requests (such as request a quote, request a test drive, make an offer, or request service) appear as leads within the dealer portal
- Use our flip reports to cross-sell customers to similar brands, makes, and models

All leads can be sent to Any CRM tool:

Also:

Reynolds & Reynolds, DealerSocket, iMagicLab, eLead, HigherGear, DealerUps, NCompass, ReckonUp, and many more...
